

Discover the greatest hard water solution since salt.

**The Sterling Water Conditioner is the safe, effective,
environmentally friendly solution to hard water problems.**

Remember when the microwave became the greatest cooking discovery since fire? Now you can discover the greatest hard water solution since salt.

For the past century, salt-based water softeners have universally been used to treat hard water. With the advancement of technology, the Sterling Water Conditioner offers a safe, effective and environmentally friendly alternative to out dated salt-based water softeners without the use of salt or other chemical additives to your water.
