## COMPRESSION SUPPLY STOPS

Designed for residential and commercial applications. These valves are machined from custom made, low lead extruded brass bar stock that meets the standard for the Safe Drinking Water and Toxic Enforcement Act of 1986 and are certified by NSF for their 61-9 standard. They seal with a neoprene O-ring onto a finely machined brass seat. All are individually tested. Finish is chrome plate unless noted with "RB" = Rough Brass. All have brass stems unless noted with "C" = Celcon Stem.

## BALL VALVE SUPPLY STOPS

Designed for residential and commercial applications. Heavy-duty body and nuts are machined from low lead extruded brass bar stock for optimum strength and reliability. Easy quarter turn ball valve mechanism resists corrosion and provides a leak-proof seal with Teflon® seats. Stems are sealed with a double Viton O-ring design.
